Sirs:

Just a note about my view on this subject....I have setnet on Ekuk beach since 1957 and live in Pedro Bay, Ak., my children and grandchildren also fish at Ekuk and mostly live in the Iliamna Lake area. I think a raw fish tax would be very unfair for us, we have little if anything to do with Dillingham and am sure we would receive no services from them. With the price of fish so low and the cost to do business getting higher every year and the planned raid on the PFD it is getting harder to make ends meet. One of the reasons we stay away from Dillingham is the prices are so high on everything there, they seem to think that more taxes is the answer and then more people move out because of this. In short I think a raw fish tax is a bad idea.

Respectfully yours,
Ronald Aaberg
